

About Us

We've Got the Perfect Solution for Your Business

Advanced Construction and Shopfitting employs the finest Shopfitters in Melbourne. You'll be glad to know we are a fully licenced commercial building company and always available to deliver the highest standards in quality workmanship...Guaranteed.

Why is ACS Shopfitters Melbourne's leading shopfitting business?

ACS is a leading Melbourne shopfitting company who have over 30 years' experience in around Melbourne and Victoria.

That's why we can provide a shop fitting service with a difference. Our extensive specialist experience provides us with the ability to work closely with you to ensure your needs are met and you receive both, exceptional quality and excellent service.

Melbourne Shopfitters and Fit-out Specialists

Advanced Construction and Shopfitting has been delivering exceptional results in shopfitting and fit-outs for cafés and restaurants (hospitality, food and beverage), retail and office environments.

We strive to deliver excellence in every step of the process. From initial conception through to planning and completion of the project. Advanced Construction and Shopfitting endeavours to lead in innovation by staying abreast of the latest products, services and concepts available.

Indeed, from busy high street shopping strips, shopping centres, gymnasiums, restaurants and more. Advanced Construction and Shopfitting has become renowned for delivering exceptional fit outs on time, on budget, every time.

Delivering Excellence Through Continuous Improvement

You'll also be glad to know that we are always working on continuous improvement and minimising the cost of business. Our team of trained professionals have occupational health and safety guidelines, quality control and continuous improvement strategies to reduce waste, costs and improve workflow efficiencies.

We're with You from Concept to Completion

We work in partnership with our clients from start to total project to completion. The key to our success is good client communication throughout the project.

Our priority is to understand your concepts and business objectives. We initiate ongoing communication throughout the project and value our client's business goals and future direction to make the project completion and seamless transition to success.

All our work is guaranteed and insured. Call us today for a free quote, or fill in the enquiry form.

Our team is comprised of builders, carpenters, joiners, plumbers, electricians, plasterers, glaziers, painters, tilers and sign writers, all qualified and experienced, and in compliance with all OH&S

certifications. Together, our expertise allows us to start from the ground up, meaning we're able to help you with more than just building; we can also assist you with design and conceptual work, custom-made fittings and material sourcing.</p>

Eco Friendly Shopfitting Melbourne

Did you know that your shopfront, office or store provides many unique opportunities to reduce waste and save on energy costs? Our ecofriendly shopfitting strategies presents a friendly action plan that is easy to complete and helps you save money in a variety of ways.

In fact, there are several things you can do to save energy and waste in your built office/store environment. Discover how to save on money, management and maintenance costs.

As you know, with most office environments it's not just as simple as turning off the lights. In today's commercial/retail environment there are many aspects of your environment where you can modify or change and reduce environmental management and maintenance costs.

Melbourne Shopfitters Eco Friendly Design

The most efficient way to dramatically reduce energy costs is the use of insulation and double glazing that is incorporated into your shopfitting design.

Eco friendly shopfitting and interior design provides a more efficient working environment and creates the opportunity to provide a more comfortable environment for your customers and employees.

By creating a plan to reduce your energy use and improve the workplace environment, your organisation will save hundreds if not thousands of dollars on daily operational costs.
